- **Web Development:** Responsive Design, Cross-Browser Compatibility, UI/UX Implementation
- **Data Analytics:** SQL, Postgresql, MS Excel (XLookup, Data Normalization)
- **Data Visualization:** Power BI, Excel
- **Core Competencies:** Problem Solving, Collaboration, Entrepreneurial Mindset, Continuous Learning

EXPERIENCE

• Impaxive Solutions

Feb 2025 – Aug 2025

Associate Software Engineer

Hyderabad

- Developed responsive web and mobile applications using **React**, **HTML**, **CSS**, **Bootstrap**, and **JavaScript**.
- Gathered and analyzed client requirements, translating them into actionable development tasks.
- Collaborated with cross-functional teams to implement new features and maintain consistency applications.
- Utilized **Git** and **GitHub** to ensuring smooth team collaboration and efficient code management.

• HDB Financial Services

Oct 2023 – Aug 2024

Credit Analyst

Kurnool, Andhra Pradesh

- Evaluated corporate lending portfolios to assess creditworthiness and mitigate financial risk.
- Prepared comprehensive credit proposals with recommendations based on financial and risk analysis.
- Monitored credit limits, tracked overdue accounts, and executed collection strategies to reduce default risk.
- Analyzed branch sales data to identify trends, measure KPIs, and support business performance reviews.
- Designed and automated interactive dashboards in **Power BI** and **Excel**, improving reporting efficiency and data-driven decision-making.

PROJECTS

• Apollo Micro Systems – Product Showcase Page(Onsite)

Tools: HTML, CSS, Bootstrap, JavaScript

- Developed a responsive product detail page to showcase defense and aerospace products and their solutions.
- Implemented modern UI components to enhance cross-device accessibility of entire application.
- Strengthened brand credibility and digital presence, tailored for B2B audience expectations.

• Recupe – Digital Referral Platform for Doctors

Tools: React, HTML, CSS, Bootstrap, JavaScript, Git, GitHub

- Built a real-time referral tracking system for doctors and diagnostic centers bringing transparency.
- Designed secure workflows to streamline communication and ensure transparent reporting in application.
- Reduced revenue leakage and improved trust between doctors and DC centers through digital integration.

• AML – Anti Money Laundering

Tools: Regulatory Compliance Analysis, Data Mapping, Reporting Requirements, Excel, PowerBI

- Defined AML business rules and logic to identify sanctioned individuals for banking compliance.
- Partnered with data architects to establish transformation rules for identification algorithms.
- Developed KPI reports (hit rate, non-hit rate, match performance) to track efficiency and support regulatory audits.

CERTIFICATIONS
